

a monthly insight into PPLLC

EMPLOYEE HIGHLIGHT

Reggie Robicheaux
Utility Manager, USDA

It is our hope that everyone had a safe and happy holiday season celebrating with family friends. We are off to a fresh start, a new year, and as promised another employee highlight!

For the month of January, our featured employee is **Reggie Robicheaux**. Reggie is the Utilities Manager at the USDA SRRC, PPLLC's facilities maintenance contract here in New Orleans. Reggie's position was placed under the contract awarded to over PPLLC (2) years ago, but his tenure at the USDA SRRC spans 32 years! Prior to working at the facility Reggie worked in the trade industry as a licensed electrician.

Reggie is married to his wife Jeanne of 32 years. They have three daughters, Jessica (34), Dara (32), and Aubree (29). Reggie also has (4) four grandchildren, Annabelle (8), Luke (3), Sophia (3), and Logan (6 weeks).

Being a native New Orleanian, Reggie is a huge fan of the New Orleans Saints and LSU Tigers.

So enough of the small talk... Let's find out what Reggie is really all about.

We spiced it up again, so continue to read Reggie's answers to the following questions;

In another life, I'm pretty sure I was a musician.

If I won the lottery tomorrow, I'd start a Charter Boat Company. And, you know, keep working here.

If I could invent a holiday, it would definitely involve, Food.

Cats or dogs? If so, how many and what is/are your pets name(s)? Both, Dogs: Jake and Maggie, and Cats: Shae, Coco, Marcus, and Nola.

What is the most inspiring part of your job? Seeing a happy customer.

When I was 5, I was pretty sure I'd be a Fireman when I grew up.

Reggie, it is our pleasure to have you on our team. Your loyalty and dedication to your family and to your job is second to none. Thank you for sharing and letting us in your world for a moment.

Good afternoon, All,

As the holidays approach, many of us are spending more time online hunting down the perfect seasonal gifts, catching up with family members, and making plans for all those holiday events.

Unfortunately, this is also a busy season for cyber criminals who take advantage of our increased time online to employ various social engineering techniques - manipulative tactics designed to obtain sensitive information or convince victims to perform actions that benefit the criminals. These social engineering strategies include "phishing" and, increasingly common, CEO impersonation fraud.

As these cyber-attacks become more sophisticated, we would like to remind everyone to be especially cautious with all data security during this busy season, both your own and that of our Company, and to do due diligence in verifying email senders/content before taking any action.

Some strategies include:

- Double checking senders' email addresses
- Securely verifying any employee requests for changes to banking/direct deposit information
- Following up unexpected email requests with a verification phone call (e.g., the CEO requesting \$2500 in gift cards being mailed to an unfamiliar location)

If any dubious content ever does come across your screen, contact the Office and/or your technical support team before taking further action.

Let's stay aware during this holiday season and throughout the year!
